Sahil Harjani is a seasoned dispute resolution lawyer with extensive experience representing domestic and international clients across complex civil, commercial, and corporate matters. Currently an Associate Partner, Sahil's practice spans high-stakes contractual disputes, shareholder battles, insolvency and bankruptcy proceedings, and international commercial arbitrations.

Over the years, he has advised and represented prominent clients before various forums including the Supreme Court of India, High Courts, the National Company Law Tribunal, arbitral tribunals, and regulators such as SEBI. Several of his matters have culminated in reported judgments, reflecting his ability to navigate complex disputes to successful outcomes.

Sahil's expertise is not confined to litigation alone — he regularly advises on strategic dispute resolution, contract structuring, regulatory compliance, and corporate governance.

Before entering the legal profession, Sahil was an entrepreneur and business professional. This dual background in law and business equips Sahil with a uniquely commercial perspective, enabling him to craft legal strategies that align with his clients' business objectives.
